

Arturo China

React Native Mobile Developer

WORK EXPERIENCE

Bootcamp Project Intern

BrightCoders, Mexico | December 2022 - April 2023

- Collaborated in teams using the Mob Programming methodology, actively participating in code reviews and collaborating on colleagues' code.
 - Worked closely with teammates to design and develop mobile apps using React-Native.
 - Utilized both React-Native CLI and Expo to create cross-platform mobile apps for iOS and Android.
 - Designed reusable components and implemented smooth navigation between screens.
 - Integrated Firebase as the backend database solution to securely store user data.
 - Developed and designed login and Google Sign Up functionalities using Firebase Authentication.
 - Performed CRUD operations (Create, Read, Update, Delete) to establish seamless connections with external APIs.
-
